

I am loud

# First Lady

## Envy Me

I am considered to be the best at everything, and well, I like it. **Envy Me**, that's what I want people to do. Envy-ronment creation is done best with a **90 degrees swiveling 40mm** Neodymium driver. A First Lady like me will make no exceptions when it comes to comfort and quality. A foam padded **headband, leatherized pads** and a **closed acoustic system** are my constitutional right.
