POWX190 SCROLL SAW 85W

This Powerplus scroll saw has an incredible sawing capacity in wood. You can also use this machine with ultrafine saws, what enables you to saw thin materials, like veneer. This saw has a flexible dust blower tubing for a continuous clear view on your workspace.

The scroll saw doesn't require a lot of maintenance: regularly clean the machine housing with a soft cloth and keep the ventilation slots free from dust and dirt, preferably after each use.

TECHNICAL SPECIFICATIONS POWX190		Features	Box content	Symbols
